

ALTUS AIR FILTER OIL

PRODUCT DESCRIPTION:

ALTUS AIR FILTER OIL is specially formulated for use on "wet type" foam air filters in both four-stroke and two-stroke engines. With a carefully balanced blend of selected base oils and additives, this product effectively prevents airborne dirt and abrasive particles from entering the fuel intake system and reaching the combustion chamber, ensuring optimal engine protection and performance.

APPLICATION:

ALTUS AIR FILTER OIL is designed for use in all oiled foam elements.

DIRECTIONS FOR USE:

NOTE: Wear solvent resistant gloves when using ALTUS AIR FILTER OIL.

Ensure the foam filter is clean. To clean, wash a dirty filter in solvent (for example, kerosene or distillate) to remove oil and dirt. Squeeze out any remaining solvent carefully, taking care not to damage the foam element. Service the foam air filter regularly in accordance with the manufacturers' instruction, and particularly when the unit has been used in dusty, dirty operating environments.

NOTE: If the filter is washed with a degreaser and then with water, remove as much water as possible by shaking or squeezing between an absorbent material or leaving to dry, before applying ALTUS AIR FILTER OIL.

Do not apply or mix ALTUS AIR FILTER OIL with any other fluid to the wet type foam air filters otherwise the efficiency of the product will be impaired.

FEATURES & BENEFITS:

- Developed to ensure excellent performance for motorcycle filters.
- Tested in both controlled field conditions and bench test procedures according to BSI 1701 (ISO 511).
- High filtering efficiency for extended filter and engine life.
- Maintains air flow for instant engine response and maximum power output.

TYPICAL PROPERTIES:

PARAMETERS	ASTM	UNIT	ALTUS AIR FILTER OIL
Appearance	-	-	Blue Tacky Oil
Flash Point, °C	D92	°C	40
Density@15°C/ 60°F	D4052	g/cm3	TBR

DISCLAIMER: The test data presented above is for reference only and not a specification. It may vary within acceptable production tolerances. Alpha reserves the right to update this data, with the latest version of the Technical Data Sheet (TDS) taking precedence over previous versions.

HEALTH & SAFETY, ENVIRONMENT:

Extended and repeated exposure to oil may lead to skin issues. Avoid contact. If contact occurs, wash immediately with soap and water. Do not dispose of used oil in drains or the environment. Instead, take it to an authorized oil collection facility. For more safety information, please refer to the MSDS available on our website: www.alphaoil.ae

HEALTH & SAFETY:

When used correctly in the recommended application and with proper personal hygiene, this product is unlikely to pose significant health or safety risks. For detailed safety information, refer to the Safety Data Sheet (SDS), available upon request from your local sales office or online. www.alphaoil.ae

PROTECT THE ENVIRONMENT:

Dispose of used oil at an authorized collection point. Follow local regulations and avoid releasing it into drains, soil, or water.

STORAGE:

We recommend storing all packages under cover. If outdoor storage is necessary, drums should be placed horizontally to prevent water ingress and protect drum markings. Products should not be stored above 60°C or exposed to direct sunlight or freezing conditions.
